

FOI Request Response information

FOI request reference:	2017/251
Date request received:	08/08/2017
Date request responded to:	11/08/2017
Category:	Service delivery
Tags:	Mental health, age, cannabis, treatment

Request Detail:

The total number of people under the age of 20, broken down by age and year, who have accessed mental health support since 2007, citing cannabis use as either a primary or adjunctive reason for seeking treatment.

Response Detail:

The Trust is unable to respond to your recent FOI request as our electronic patient records do not record cannabis use as a specific code, so the only way we could ascertain this information is by manually trawling through all the patient records. This would take more than the recommended 18 hours of effort as recommended in the Freedom of Information Act.
